

# Statement on the Passing of Nick Ames

Friday, April 28, 2023

It is with solemn hearts that we learn of the passing of staff member Nick Ames. Nick was a cherished member of the Butler community, and will be missed campus wide by students, faculty, and staff alike.

Our thoughts are with his family, coworkers, and all of those who were touched by Nick's life. Nick was a respected member of the Health and Recreation Complex staff and was an adjunct faculty member in the College of Education.

This is the second loss to our community in a very short amount of time. I would like to remind everyone of the resources available to our campus community, and staff is available from Counseling and Consultation Services, as well as the Center for Faith and Vocation. It's important to rely on one another as Bulldogs and as community members in these difficult times.
